Recommendation letter

To whom it may concern ,

I would like to highly recommend Mr. Świątkowski Sebastian , as Senior Architect on the project of Łódź Fabryczna train station . Sebastian had demonstrated the upmost level of professionalism during his tenure with us . His experience in Project management of a large scale infrastructure projects in a dense urban area , had been crucial to our work.

He had been able to singly handle the design integration and coordination with the different project stakeholders , of the entire master plan as well as any others component requiring his skills. Sebastian had demonstrated a very good team spirit and been a valuable individual of our delivery team .

I wish Sebastian all the best , and I am confident that he will be able to succeed in any task given to him .
